

Whereas, the majority of voters in every major political party support Cannabis legalization for responsible adult use,

Resolved, we support:

The Minnesota legislature passing a law to place a proposed Constitutional Amendment on the General Election ballot, to Let the People Decide, by voting “yes” of “no:”

The official ballot title: “Guarantee Equal Rights to Marijuana as to Beer and Wine.”

The ballot measure would add a Section 18 to Article I of the Minnesota Constitution. And it would add the following text:

“Sec.18. The rights of the people to cannabis, including marijuana and hemp, shall not be restrict, regulate or tax in any way more than the laws restrict, regulate or tax the people’s rights to alcoholic beverages, including beer and wine.

Delayed effective date: This constitutional amendment will take effect five years after its approval by the people, so the legislature will have an opportunity to amend existing laws should it so desire.”
